Dear Valued Customers,

Low Sulphur Surcharge (LSS) Implementation

International Maritime Organization (IMO) regulation of Sulphur limit of 0.5% will take into effect with effective from 1st January 2020 in order to reduce Sulphur Oxides (SOx) emissions from vessels. Under the new global limit by IMO, Central Express Lines (CEL) has no choice but to follow the regulation of Sulphur limit of 0.5% against the current limit of 3.5% fuel for all carrier vessels.

With the intention of using a cleaner fuel to benefit both the environment and overall human health, carriers have announced to be compliant to IMO's regulation.

The new IMO 2020 Low Sulphur Regulation impacts the global shipping industry and shipping costs are set to increase worldwide. In this regard, CEL shall implement a "Low Sulphur Surcharge (LSS)" to cover this incremental cost.

» Low Sulphur Surcharge (LSS) will be applicable to all trades with effective from **1st November 2019**.
