

Operational Restrictions – Cargo Weight Restrictions

Size/Type	Trailer Maximum Laden Weight* Skeletal Chassis	Trailer Maximum Laden Weight* Platform Chassis
20GP/RF	Not exceeding 27.0 Metric Tons	Not exceeding 28.0 Metric Tons
40GP/HQ/RF	Not exceeding 29.9 Metric Tons	Not exceeding 29.9 Metric Tons
* Trailer Maximum Laden Weight = chassis weight + payload + container tare weight		

- Laden containers which do not exceed the above weight limits can be transported on roads and over bridges in Singapore with ease.
- Please note that all trailers entering or leaving the port premises are subjected to checks by the Traffic Police at the weigh bridges sited at the port's entrance and exit gates.

Size/Type	Maximum Cargo Weight
20GP	Not exceeding 21720 kgs
20RF	Not exceeding 21050 kgs
20OT	Not exceeding 21560 kgs
20FL	Not exceeding 27530 kgs
40GP	Not exceeding 26500 kgs
40HQ	Not exceeding 26500 kgs
40RF	Not exceeding 27650 kgs
40RQ	Not exceeding 26050 kgs
40OT	Not exceeding 26280 kgs
40FL	Not exceeding 39470 kgs
